

WHO ARE WE?

Founded in 1993, Albin Engineering Services, Inc. (AESI) has been a top provider of staffing, outsourcing, consulting, and workforce solutions services that support Engineering, Bio-Tech, & Information Technology clients. AESI offers staffing solutions such as; Contract-to-Direct Hire, Direct Placement, and Payroll Services.

OUR FOCUS

AESI qualifies top talent for a variety of industries and fields to deliver success to your business.

- Engineering
- Information Technology
- Biotechnology
- Clinical & Scientific
- Supply Chain
- Logistics & Operations
- Business Administrative Functions

CORE COMPETENCIES

AESI provides experienced professionals who provide high quality service to help clients meet their operational and developmental objectives by providing technical resources to meet their short and long term requirements.

Project & Program Services

We build comprehensive, high quality teams to solve problems and increase your speed to delivery, and help manage cost. Project Services can be billed as time and material service contracts or by project milestone management.

Payrolling Service

AESI can handle all of the administrative aspects associated with engaging client-sourced consultants including, but not limited to, payroll taxes, full employee benefits, and protection against any co-employment concerns.

Consulting Services

We provide experienced professionals who can share their recommendations and expertise to help you find solutions for your needs.

Contract-to-Direct Hiring Services

After you assess a consultant or temporary worker's performance while supporting your project, AESI can assist you in converting them to direct employees.

Direct Hire Recruiting Services

We partner with you to understand the details and success factors of your business & technology in order to find the right candidate whose skills are the best fit.
